TRIBUTE TO STEVE ANTOLINE

• Mr. MANCHIN. Mr. President, it is an honor to recognize the legacy of Steve Antoline as fearless leader in business, a dedicated philanthropist, and a proud West Virginian who has made substantial contributions to our home State.

One of the greatest milestones we achieved when I was West Virginia's Governor was when the Boy Scouts of America committed to bringing a world-class scouting facility to the Mountain State, and Steve was a vital part of that process. Today, the Summit Bechtel Reserve is homebase every 4 years for tens of thousands of Boy Scouts from across the country. I assembled government officials, business leaders, and private volunteers into what I called the West Virginia Project Arrow Task Force in order to convince the National Executive Board of the Boy Scouts of America of what we already knew—that the ideal place for this facility was in the adventurous terrains and magnificent mountains of West Virginia. The Boy Scouts and West Virginia truly are a perfect match—an organization that builds character, inspires reverences, and promotes the values of hard work and compassion, and a State whose people live and breathe those values every day.

Steve was able to create and manage so many wonderful programs through the camp. He worked on the Reaching the Summit Boy Scout Community Service Initiative, organizing and garnering support for more than 34 projects that utilized countless hours of community service for Nicholas County. Also in Nicholas County, he serves as the chairman of the Young Life Wild Ridge Camp Executive Committee and also as a sponsor of the Young Life organization for the county. With Steve's input, Young Life is currently in the early stages of building the Wild Ridge Camp, which will host more than 22,000 children per year, providing educational opportunities to develop leadership skills, civic responsibility, and moral values.

As one of the founding fathers of the Summit Bechtel Reserve Scout Camp, I cannot think of a more fitting tribute to his legacy than the Steve Antoline Family Conservation Center and Trail. The coal from that property helped build the Panama Canal. The timber that from that property helped build

the boats that helped win WWII. It has so much historical value, and now it builds the tallest timber—our future leaders. And as Scouts walk by the newly dedicated bronze tribute in honor of Steve's legacy, it is my hope they are inspired by the man who has surrounded them with opportunities here in West Virginia.

The Conservation Center will offer hands-on exhibits, projects, and a laboratory for Scouts and youth to further understand and promote conservation efforts. This project is being designed and built by Steve, along with collaborative efforts from the Boy Scouts of America and West Virginia University.

Beyond the camp, Steve has contributed greatly to the surrounding region. He has founded and operated various companies that include operations in natural gas, production, excavation, contracting, property development and biosciences research companies. Among his many accomplishments for West Virginia is Superior Highwall Miners, Inc., a business based in Beckley that grew into the world's largest manufacturer of highwall mining equipment. His efforts brought in countless jobs and showcased West Virginia's vast potential across the globe.

Steve serves as cochairman of the new WVU Children's Hospital Building Campaign and also serves on the hospital's advisory board. He is the owner of New River Labs, LLC and KEM Research Group, LLC, a cancer research company performing state-of-the-art diagnostic services for esophageal, cervical, melanoma, pancreatic, prostate, and many other forms of cancer. At Summit Resources, Inc., Steve serves as owner and president, specializing on excavation, land management, and investment. Other organizations he has been involved with include the Remember the Miners Organization, the Norma Mae Huggins Cancer Research Foundation, Summersville Youth Athletics, Raleigh County, YMCA, Beckley Chamber of Commerce, and the Fayette and Nicholas County chapter of the American Red Cross.

Put simply, Steve is a West Virginian, through and through. He knows our communities inside and out and has strived throughout his endeavors to give back to the people of West Virginia, particularly to our future leaders. He has a passion for providing our State's youth with every opportunity possible to achieve success. With thanks to his efforts at Summit Bechtel and beyond, countless opportunities have been created and will continue to come to fruition in the days and years ahead.

I wish the very best for Steve and his family: his wife, Jamie; his children, Emily, Madison, and Kristopher; and his grandchildren Nina and Hunter. I am honored to join them and all West Virginians in celebrating Steve's lifelong commitment to excellence in the Mountain State.●

RECOGNIZING CHEMTRACK ALASKA

• Mr. SULLIVAN. Mr. President, this week, I have the opportunity to introduce the U.S. Senate Small Business of the Week. Small businesses provide essential services to our Nation's communities. In my home State of Alaska, I have seen firsthand small businesses that contribute to the local economy and step in when a community is in need. It is my honor to name ChemTrack Alaska of Anchorage, AK, as the Senate Small Business of the Week.

ChemTrack was founded as a construction company by Sig Jokiel in 1973. Shortly after its inception, the company shifted focus and rebranded itself into an environmental services and engineering company when Chuck Ronan joined the team in 1985. After studying business at the University of New Hampshire, Sig's daughter, Carrie, joined the company in 2002. Carrie, who became the company's majority partner in 2010, brought business expertise and project management skills to ChemTrack. Throughout the company's 46-year history, it has contracted with the U.S. Air Force, Alaska Railroad Corporation, Bureau of Indian Affairs, National Oceanic and Atmospheric Administration, BP, Exxon, and many other government institutions and businesses. In 2019, ChemTrack was awarded the Women-Owned Small Business of the Year Award by the SBA in recognition of its outstanding achievements.

ChemTrack's commitment to developing creative environmental engineering solutions enables the company to contribute to local projects in Alaska's great outdoors. As a successful contractor and a certified 8(a) economically disadvantaged woman-owned small business, ChemTrack has completed projects for both private businesses and government clients. ChemTrack helped clean up Alaska's shorelines after the Exxon Valdez oil spill in 1989 by developing innovative, barge-mounted sweeps to clean sea water. As a testament to ChemTrack's environmental stewardship, the company was awarded a basic ordering agreement by the U.S. Coast Guard in 2012, enabling them to provide containment cleanup and mitigate the harmful effects of oil spills and hazardous substance incidents all over the state of Alaska.

Carrie is renowned as an advocate for small businesses at both the Federal and State level. During her testimony in front of the Senate Committee on Small Business and Entrepreneurship in June 2018, Carrie discussed the SBA's contracting programs and provided insight on her experience operating a woman-owned small business. As a graduate of the SBA Emerging Leaders program, Carrie is very active in her community and even mentors other Alaskan businesses through the Women's Power League of Alaska. Carrie's distinction as a local leader is evidenced by her inclusion in the Alaska
